DIGITAL DISCOVERY CENTER

Before School Care and Afternoon Enrichment

KINDERGARTEN THROUGH GRADE 6

Before School Care and Afternoon Enrichment

Daily Before School Care

Open at 6:30 a.m. Grades K-6 Every Day

Before School Care begins at 6:30 a.m. and lasts until children are picked up by Avon Lake School buses. Scheduling is flexible. Transportation is only available for Avon Lake residents. A healthy breakfast is provided.

Daily Afternoon Enrichment

2:30 p.m.—6:00 p.m. Grades K-6 Every Day

The Digital Discovery Center is a high quality after school program which is fun and age appropriate. The environment is safe and nurturing and run by experienced teachers. We include a variety of opportunities for young children to explore computer technology, filmmaking, photography, and more traditional arts, crafts and literacy activities. Stop motion animation, building with LEGO Technics and programming LEGO robots captivate the older children. Younger children love to build with basic LEGOS and are eager to move beyond just playing computer games to learning how to use computers creatively

• LEGO's & K'NEX—Build with a Buddy!

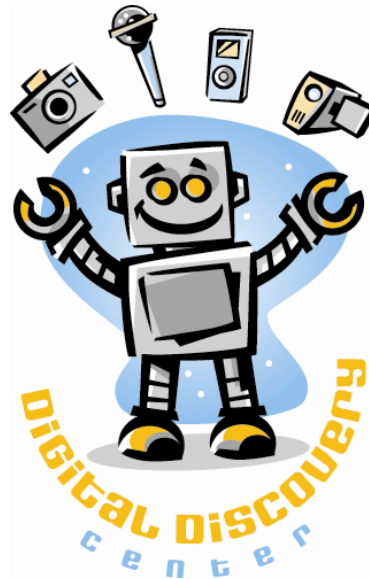

Come use our amazing collection of LEGO and K'NEX-pieces to create imaginary cars, trucks, buildings, space vehicles, and anything else you can think of. Build with your friends and meet other Legomaniacs. If you can imagine it, you can build it.

• DDC-TV

Become a part of DDC-TV, a kid-produced TV program on Avon Lake's Public Access Channel 99. Learn about video cameras, mixing boards, film editing, green screens and experience what it's like to be "on camera".

• Digital Media—Video, Music, Stop-Motion Animation

Create short animated films using LEGO pieces or clay figures on specially designed sets. Write your own script, add special effects, and your own soundtrack with voice narration and music. Learn how to record music on a

computer or create a song from scratch using software loops. Finally, burn your creations to a DVD or CD and transfer them to your iPod! Visit our website for examples.

COST & SCHEDULING

There are no registration or activity fees. You can schedule one or more days per week. Avon Lake school buses will drop and pickup at our school. Arrival times can vary. Before School care is \$10 daily. Afternoon enrichment tuition is based on the actual number of days scheduled per week, and ranges from \$20 for one day per week to \$70 for 5 days per week. Full time before school and afternoon enrichment is \$100 weekly. Siblings receive a 10% discount. See our website for details.

REGISTRATION

Email steve@pembrokekids.com or call 440-933-3782 for registration forms or more information. Forms can also be downloaded from www.pembrokekids.com.

About Us

The Digital Discovery Center is an exciting part of Pembroke Kids Child Development Center, owned by local Avon Lake residents Steve and Andrea Caris. Andrea is the Director of Pembroke Kids, a thriving mixed-age preschool that has just relocated to a brand new building on Pin Oak Parkway in Avon Lake. Steve manages the after school program. For the last fifteen years he has developed innovative technology education programs in independent schools. He is a veteran teacher with 30 years experience.

Program

The Digital Discovery Center provides children with hands-on access to sophisticated technology. Creativity is encouraged! Robotics, digital filmmaking, photography, and other forms of digital media are exciting new forms of technology and communication that captivate children and challenge them to develop their creative and problem solving skills. Our after school enrichment program is individualized and focuses on the interests of each child. We try to keep things fresh and exciting, and allow students to explore a number of areas in depth. Homework assistance is always available, and time is set aside for outside activities.

Why are your kids doing the same old things after school this year?
